

200-S & 300-S

The **200-S** & **300-S** are heavy duty high tensile strength nylon single strap restraints. The strap has a smooth surface with closely spaced strap teeth for accurate tension adjustment and will not cut into the suspect's skin. These restraints can be used for wrists or ankles. Available in Natural or Black.

1000 units per case. 100 units per bag.

Available in packs of 10.

200-S 3/8" wide x 20" long Strap with a single locking head.

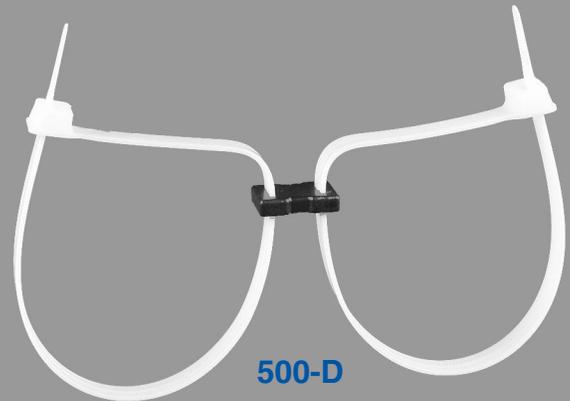

300-S 1/2" wide x 22" long Strap with a double locking, twin recessed heads and a security stop system for added security.

The **500-D** is a high tensile strength double loop restraint with a fixed bridge. The restraint is designed for rapid outside strap insertion, as opposed to the difficulty of positioning each strap between the wrists. This design permits the arresting officer to easily insert these straps under severe field conditions. Available in Natural or Black.

250 units per case, 10 units per bag.

500-D 1/2" wide - 2 individual 15" straps with double locking twin recessed heads and a security stop system for added security.

Nato stock No. 8465-15-157-2389

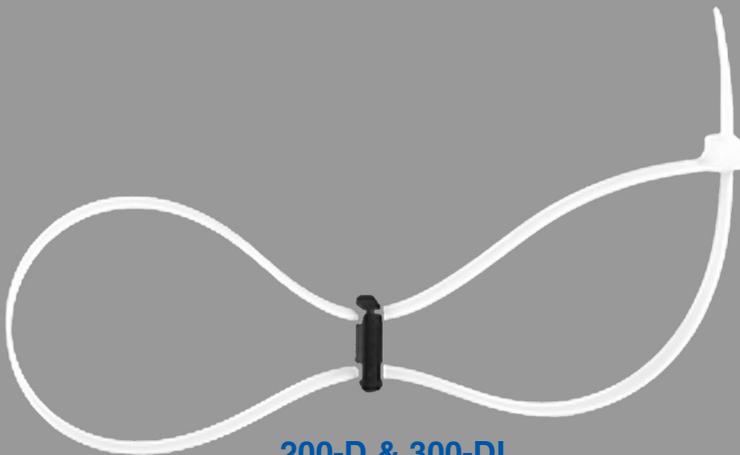

500-D

The **200-D** & **300-DL** are heavy duty high tensile strength nylon single loop restraints. These products are a double loop restraint system that permits the arresting officer to enclose each wrist or ankle separately. Available in Natural or Black. 500 units per case, 20 units per bag.

200-D 3/8" wide x 25" long Strap with a single locking head.

300-DL 1/2" wide x 28" long Strap with double locking, twin recessed heads and a security stop system for added security.

200-D & 300-DL

The Compact **C-300-S Pocket Cuff™** is a heavy duty high tensile strength, nylon single loop restraint. Compacted for situations when storage space is limited, concealment a must. Available in Natural or Black. 48 units per case, 6 units per bag.

C-300-S 1/2" wide x 22" long Strap with a double locking, twin recessed heads and a security stop system for added security.
