

JT SPORTS LLC

JT has manufactured protective gear for over three decades. Today JT Sports LLC produces a full line of paintball products under six brands to satisfy every player's needs and expectations.

It is our vision in 2008 to continue this tradition by bringing to market innovative, quality paintball products and provide world class customer service to players, teams, dealers and field operators.

Our people work hard every day to grow and support the sport of paintball.

Welcome to our world, the world of Paintball. Paintball For Life.

FLEX 8

JT's exclusive "Dual-Fusion" technology has helped us produce a revolutionary exoskeleton that can only be found within our Spectra™ goggle line. More specifically, the Flex-8™ system offers integrated venting on the jaw which has also been strategically designed to encourage deflections and bounces. While the JT Spectra™ Flex-8™ offers a "smaller target" to your opponent than previous Spectra™ systems, the Flex-8™ goggle still maintains its ability to accept the Vortex II™ fan and other popular JT accessories. All models come with a removable visor.

FEATURES

01. Spectra 260 Degree Field of Vision
02. "Dual Fusion" Technology
03. Thermal Lens
04. One Piece Ears and Bottom
05. Removable Visor

Proflex™ systems are built for the professional and are hands down "the most comfortable goggle system in the world." Built on a timeless design, the Proflex™ goggle provides superior face protection using JT's unique Dual Fusion technology giving the player a rigid upper for maximum eye protection, while offering a soft flexible lower jaw mandible that allows the player to conform and move easily. Unrivaled soft ears and a removable visor are also standard on all Proflex™ models.

OLIVE
THERMAL: 8333

FLEX 7

Flex 7™ systems are JT's best combination of soft and hard protective materials. The Flex 7™ mask is used to provide superior face protection using JT's unique Dual Fusion molding technology. This gives the player a rigid upper mask for real protection with a gel skirt to conform and move. Great for scenario games where you want hard ear protection along with a gel skirt that allows you to sight your marker and focus on the game. All items include a removable visor.

FEATURES

- 01. Spectra 260 Degree Field of Vision

ARMOR ^{BODY}

FEATURES

- 01. Cushioning Memory Foam
- 02. Special Impact Absorbing Padded Layer
- 03. Breathable Mesh Main Body

In today's game paintball markers are shooting 15 balls per second and the player needs extra protection. JT Body Armor has been redesigned to give the player maximum protection. Enhanced with cushioning memory foam over a protective layer of special impact absorbing material keeps the player safe and welt free. Additionally, the Body Armor gives the player optimal maneuverability. Each absorbing layer is strategically placed onto the breathable mesh body to increase both protection and comfort.

PRO HARNESS: 1813

4+3 PRO HARNES

The 08 JT Pro Harness is designed to be functional and lightweight. Built with ballistic nylon webbing and an elastic belt to ensure a comfortable fit and maintain durability. The 4+3 pod configuration allows the player to choose how much paint they want to bring onto the field. Elastic top straps with neoprene grips and quick pull tabs help push the pod into the player's hand for effortless usability. Compression formed neoprene has been added to the back section for essential lumbar support. The harness is equipped with a Hide-Away pod sack allowing the player to gather up their empty pods after a victorious game.

FEATURES

01. Elastic Top Strap with Neoprene Grip
02. Ballistic Nylon Webbing
03. Vertical Quick Pull Tab Pod Grips
04. Extra Elastic Pod Loops
05. Compression Formed Neoprene Inner Lumbar Support
06. Inner Elastic Belt
07. Hide-Away Pod Sack

VL FORCE

Continuous force feed, 15 bps on marker feed rate, jam-free 6 blade force feed paddle, 2 piece body design for easy cleaning and battery replacement, 200 ball capacity, LED low battery indicator, One 9 volt battery (not included).

FEATURES

- 01. Continuous Force Feed for Faster "Out of the Gate" Speed
- 02. 18 BPS (Balls Per Second)
- 03. 6 Blade Flexible "Jam Free" Force Feed Paddle for Fewer Jams and Less Broken Paint
- 04. 2 Piece Body Design for Easy Cleaning and Battery Replacement
- 05. Quick Access Spring Loaded Flip Lid
- 06. Soft Touch On/Off Button with Guard Rails
- 07. 200 Ball Capacity

RED: 0987

VLOCITY SHELL KIT

Large mouth for quicker loading, fits VLocity™ Select Force™ and VLocity Junior™ loaders. This is a great way to customize a loader with speed and ease.

COLORS

BLUE: 0986

CAMO: 0988

CHIP: 1148

SELECT FORCE CHIP

Fits all VLocity™ loaders and is a must have for players looking to upgrade. The Select Fire™ Chip features select force 8 force modes, 27 bps feed rate and on/off force technology.

BLACK: 1475

VL 200

The VL 200™ holds 200 paintball and features a spring loaded lid for quicker loads. This loader works best with a semi-auto or a pump marker. Available in either black and clear.

FEATURES

- 01. Spring Loaded Lid
- 01. 200 Ball Capacity

BLACK: 5060

VL BOW

A high quality elbow created specifically to fit all our loaders. The VL Bow™ is well engineered from extreme impact plastic, strong and easy-to-use. It is equipped with integral quick release thumb screws.

COLORS

DARK SMOKE: 5059

SQUEEGEE: 5012

PROFLEX SQUEEGEE

Made from an injection molded rubber compound, the quad-disk™ design provides four times the cleaning efficiency of the standard squeegee.

SWAB: 8608

BATTLE SWAB

The Battle Swab is another great item that will help keep markers running to their highest performance level. The soft swab allows removal of that hard to reach paint in barrels and other tight areas. A rubber corner enables players to fold the Battle Swab and place it inside cargo pockets for quick and easy storage during high speed play when ever second counts.

Z-BOARD: 0334

Z-BOARD UPGRADE

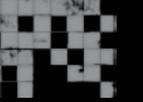

Instant “out of the gate” speed for maximum performance, up to 23 balls per second feed rate, moisture resistant circuit board, extended battery life saving technology.
