

**DAMASCUS PROTECTIVE GEAR**

Dear Customer,

D.P.G. is driven by the power of experience. The ownership and management behind our brand have many decades of knowledge covering every single aspect of this specific business: glove & gear design and manufacturing for the public safety market. That experience also streams through our customer service staff to sales, purchasing and so on.

The bottom line is that no other glove brand in our market even comes close to matching our level of combined experience or expertise'. This is the principle force behind our success. It translates into having the best designed and highest quality products, the most personal attention, and being most in tune with our customer's needs and wants.

Over the last year we have also won some of the largest glove and gear contracts for law enforcement in the world, including the New York Police Department, US Customs & Border Patrol, US Department of Justice, the US and Canadian Military and several International Governments.

Please look closely at our other latest efforts. You will see the introduction of fine leathers from the world-leading Pittards® of England, as well as other new cutting-edge technologies which supercharge the products they've been designed into.

We look forward to serving you soon.

Sincerely,

Josh Cranford  
Vice President  
DPG : Damascus Protective Gear

DPG incorporates some of the highest quality materials and most advanced technology available into our products. Some of our leading brand partners:

### #MX-10 : Nexstar I™ - Lightweight

- Light, cool and breathable for year-round use
- Diverse style useful for multiple applications / tasks
- Lightweight nylon/Lycra® blend (Spandura®)
- Clarino® synthetic suede palm
- Non-slip grip reinforced palms and finger tips
- Adjustable wrist closure
- Washable
- Size range: Men's xsm to xlg

### #MX-10R : Nexstar I™ with Reflective Identification

- Same features as the MX10, with "POLICE" (#MX10-RP) or "SHERIFF" (#MX10-RS)
- Day or night identification
- Will not wear or deteriorate like silk-screened logo versions

### #MX-20 : Nexstar II™ - Medium Weight

- Medium weight materials used for additional durability
- Diverse "mechanics" style useful for multiple applications / tasks
- Medium weight nylon/Lycra® blend (Spandura®)
- Neoprene knuckles for enhanced hand flex
- Clarino® synthetic suede palm
- Reinforced padding on palms at key wear points
- Adjustable wrist closure
- Washable
- Size range: Men's xsm to xxlg

Also available in: Desert Tan : #MX20T Coyote Tan : #MX20C

MULTIUSE - SEARCH

**#MX-30 : Interceptor X™ - Black**

- Medium weight materials used for additional durability
- Diverse style useful for multiple applications / tasks
- Medium weight nylon/Lycra® blend (Spandura®) backs
- Ventilated AirMesh™ at wrists
- Reinforced lightly padded design on backs of hands
- Full leather palm
- Adjustable wrist closure
- Size range: Men's xsm to xxlg

Also available in  
 Sage green / gray combo : #MX30G  
 Coyote Tan: #MX30C (with Clarino® synthetic suede palm)

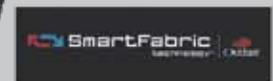

**INTERCEPTOR X™**

**#MX-40 : AXIM™ Adaptive “Cool” Gloves with patented Smart Fabric Technology (SFT)™ by Outlast®**

- AirMesh™ contoured breathable backs for maximum airflow and heat dispersion
- U.S. Made SFT™ interior linings balance hand temperature to prevent hands from being either too hot or too cold
- Clarino® synthetic suede palm with micro-perforated holes for air ventilation
- Neoprene expandable wrist
- Seamless rolled finger tip design for superior tactility during searches
- Adaptive all-day / year-round comfort
- NASA approved technology
- Patent pending
- Size range: Men's xsm to xxlg

**AXIM™**

**MULTIUSE - SEARCH**

**#MX50 VIPER™ with Pittards® sheepskin palms**

- Pittards® laser etched Spyder™ print premium Sheepskin leather cut .55 mm thin for maximum sensitivity
- Water and oil resistant
- AirMesh™ contoured breathable backs and thumbs for maximum airflow
- Neoprene expandable wrist and backside panels for flexibility
- Seamless rolled leather finger tip design for superior tactility during searches and shooting
- Size range: Men's xsm to xxlg

WORLD CLASS LEATHER

**DARKSTAR**

**HALO**

**#MX-1000 : DARKSTAR™ with Kevlar® palms & SuperFabric® brand material finger tips**

- 100% 9oz. Kevlar® fabric bonded to Clarino® synthetic leather on palms for cut resistance
- P+ SuperFabric® brand material in finger tips for moderate puncture resistance
- Reinforced hand cradle at the thumb, offers sure grip and weapon control
- Back of hands feature AirMesh, 1.5mm neoprene and nylon Spandex® for snug fit
- Neoprene at the wrist with adjustable wrist closure
- Washable
- Size range: Men's xsm to xxlg

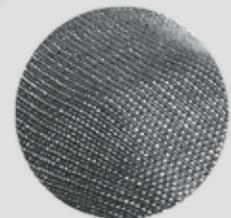

**#MX-1000UX : DARKSTAR™ with Spectra® UltraMAXX-2™ blend palms & SuperFabric® brand material finger tips**

- The same as our MX1000, but with Spectra® UltraMAXX-2™ blended knit (instead of Kevlar) bonded to Clarino® synthetic leather on palms for maximum cut resistance

**#MX- 5000 : HALO™ with UltraMAXX™ liners (a proprietary Spectra® blend)**

- U.S. Made UltraMAXX™ provides the ultimate in high-performance cut protective liners
- UltraMAXX™ liners are made from an advanced proprietary combination of Spectra® and other fibers
- Cut protective up to 12 lbf.
- Aggressive pre-curved design to maximize hand comfort and fit
- Breathable medium weight nylon/Lycra® blend (Spandura®) backs
- Injected padded pattern on backs of hands for style and protection
- Clarino® synthetic suede palm
- Neoprene cuff and adjustable wrist closure
- Size range: Men's xsm to xxlg

**#DPG125 : Patrol Guard with KEVLAR® in Black**

- 100% 9oz. Kevlar® fabric bonded to Clarino® synthetic leather on palms for cut resistance
- Non-slip material in hand cradle offers sure grip and weapon control
- Back of hands feature 1.5mm neoprene and nylon Spandex® for snug fit
- Terry cloth outer thumb can be used for perspiration wipe
- Adjustable wrist closure
- Washable
- Size range: Men's xsm to xxlg

**#DNK-1 : Enforcer K™ Neoprene with KEVLAR® liners**

- 100% Kevlar® cut resistant protective liners
- Durable breathable neoprene backs
- Sure-grip synthetic leather palms for optimum sensitivity
- Washable and breathable synthetic outer shell
- Adjustable wrist closure
- Size range: Men's xsm to xxlg

- U.S. Made Razornet™ high performance cut resistant liners: (a proprietary blend of Spectra, fiberglass, and polyester yarns)
- 10 times more cut resistant than mere 100% Spectra of the same weight
- Smooth premium quality aniline finished cowhide
- Extended gathered wrist
- Water resistant
- Available in any color leather by special order. Minimums may apply.
- Size range: Men's xsm to xlg

**#DFS2300 : FRISKER NYPD – Leather with Spectra® liners**  
This Damascus® style is the official issue of the N.Y.P.D.

- With 100% Spectra® U.S. Made cut resistant protective liners
- Hydrofil bonded interior liner for warmth
- Smooth premium quality aniline finished cowhide
- Extended gathered wrist
- Water resistant
- Size range: Men's xsm to xlg

**CUT RESISTANT**

### #DVG800 : Vanguard™ Leather gloves with Hipora® barriers

- Hipora® membrane which is both waterproof and breathable and is a guardian from blood and body fluids.
- Smooth premium quality aniline finished cowhide
- Thin black nylon tricot outer liner bonded to foam
- Wrist length elasticized cuff
- Meets OSHA Standard for blood borne protection
- Size range: Men's xsm to xlg

About our Bloodborne Pathogen protection...

The Vanguard™ gloves have been designed to address the O.S.H.A. Blood borne Pathogens Standard (29CFR 1910.1030) to protect hands from deadly microorganisms such as HIV, TB, Hepatitis, Staph, etc. by means of the highly effective Hipora® liquid/barrier proof liner. These gloves are ideal for use by all law enforcement personnel who come into contact with body fluids on a frequent and/or unexpected basis.

NOTE: Other stocked models which feature the 100% Hipora® barriers:  
#DNS860L, #DZ-8, #DZ-9, #DZ-10 and the #CRT300

#DVG850 with Kevlar® lining available by special order

### #X1 V-FORCE® with SuperFabric® brand material Cut Resistant palm

- NOW WITH ROLLED FINGER TIP DESIGN for increased fit and trigger control
- AirMesh™ breathable backs
- Complete palm side cut resistant protection using U.S. Made SuperFabric® brand material.
- Single layer of protection in palm patches provides up to 5.5 lbf of cut protection (more than Kevlar®)
- Thin silicone application for superior grip on hard surfaces
- Extremely lightweight and breathable for year-round search use
- Velcro® closure strap with embossed logo
- Washable
- Sizes: Men's xsm thru xxlg

### #X5 V-FORCE® with SuperFabric® brand material Puncture Resistant finger tips

- Spandura® breathable backs
- Complete finger and thumb tip coverage for protection in the highest risk areas using U.S. Made P+ SuperFabric® brand material
- Test results yield hypodermic needle puncture resistance in the finger tips up to 1.2 lbs of force
- Single layer of protection in the palms provides up to 5.5 lbf of cut protection
- Thin silicone pattern applied to key areas on palm-side for superior grip on hard surfaces
- Extremely flexible for the most comfortable (effective) puncture resistant gloves in the market
- Velcro® closure strap with embossed logo
- Optimum for general search and duty use, airport screeners, etc.
- Washable
- Sizes: Men's xsm thru xxlg

PUNCTURE / CUT RESISTANCE

**#X3 V-FORCE® Puncture & Cut Resistant gloves  
with SuperFabric® brand material and Kevlar®**

- NOW WITH ROLLED FINGER TIP DESIGN for increased fit and trigger control Black Kevlar® backs (bonded to Spandura®) for added cut resistance over entire hand
- 2 layer U.S. Made P+ SuperFabric® brand material on palms and finger tips (front back side of fingers only)
- Thin silicone pattern on palm-side for superior grip on hard surfaces
- Velcro® closure strap with embossed logo
- Independent test results yield cut protection levels up to 10 lbf and hypodermic needle puncture resistance up to 1.5 lbs
- Exceeds NIJ's highest level category for cut and puncture/tear performance
- Very flexible with superior grip for suspect apprehension & control
- Sizes: Men's xsm thru xxlg

**#X4 V-FORCE® Puncture & Cut Resistant gloves  
with SuperFabric® brand material and Kevlar®**

- NOW WITH ROLLED FINGER TIP DESIGN for increased fit and trigger control
- Same style features as our #X3 model, but with 3 layers (instead of 2) of P+ SuperFabric® brand material around the entire fingers/thumbs and palms for the maximum level of cut and puncture protection
- Test results yield cut/abrasion protection levels up to 12 lbf and hypodermic needle puncture resistance up to 2.5 lbs of force
- The best in the V-FORCE™ line for the highest threat level searching environments
- Sizes: Men's xsm thru xxlg

\*SuperFabric® is a registered trademark of HDM, Inc. and is protected by multiple patents and patents-pending.  
\*\*No gloves are puncture or cut PROOF, and all have their limitations. Always use extreme caution when searching.  
Comparative test data available.

**#D20P : Dynathin™ unlined leather gloves**

- Smooth premium quality aniline finished cowhide
- Gathered wrist
- Unlined
- Size range: Men's xsm to xxlg

**#D302 : Ultrathin™ Cabretta unlined leather gloves**

- Hand table cut luxurious premium cabretta leather
- Treated water repellent leather outer shell
- Gathered wrist
- Unlined
- Available in any color leather by special order. Minimum's may apply.
- A Damascus® original design for police since 1967

- Size range: Men's xsm to xxlg

Also available in Desert Tan : #MX20T & Coyote Tan : #MX20C

The NEW DKX-1 VORTEX™ from DPG : Damascus Protective Gear® have a unique hybrid construction which combines high and low density materials to deliver maximum “cush”, while the contoured ergonomic shape offers superior knee pad support. Part of the DKX-1’s secret is its GEL and GEL foam center cores which contain two types of shock-absorbing gels bonded together to create unsurpassed comfort. The GEL also absorbs body weight and disperses it within the pad.

- Heavy-duty, hard-shell composite cap which is truly NON-SLIP and plants you firmly on any surface.
- The GEL cores and the unique caps then work together to produce the best possible knee zone protection from blunt force trauma.
- Perforated breathable neoprene coated with silicon at the tops of the pads hug the leg above the knee.
- 1000 denier nylon Cordura® braces and protects the rest of the knee area.
- Both straps feature silicone coated strips to prevent pads from slipping in motion, and reinforced rivots.
- Lined and protected with AEGIS Microbe Shield® which controls bacteria and fungus that cause odor, staining, and material deterioration.
- The ergonomic design of the DKX-1 as a unit conforms to the knees like no other and produces superb mobility. The pads have been extensively designed specifically for law enforcement and military to produce the highest level of durability and extended knee pad life.
- Available Colors:
  - DKX-1 (black)
  - DKX-2 (od green)
  - DKX-3 (coyote tan)
  - DKX-4 (ACU digital camo)

#### Colors and Style #'s:

- #DKP-1 / Back
- #DKP-2 / OD Green
- #DKP-3 / Coyote Tan
- #DKP-4 / ACU Digital (NEW)
- #DKP-5 / Foliage Green (NEW)

**#DNSG-3 : IMPERIAL™ Neoprene Knee/Shin Guards with Trion™ non-slip pads**

- Stealthy durable neoprene outer shell with reinforced stitching throughout
- Silent and form fitting
- Trion™ Non-slip grip technology on knee pads
- Shock absorbing 10mm foam, plus a second layer of polyurethane foam in knee pads for max comfort
- Multiple adjustable elastic straps and Velcro® closures for secure fit for various leg girths
- Extended padded protection in shin section to deflect debris
- Can be worn inside or outside of gear
- One size fits all

**#DNKP-4 : IMPERIAL™ Neoprene Knee Pads with Trion™ non-slip pads**

- Stealthy durable neoprene outer shell with reinforced stitching throughout
- Silent and form fitting
- Trion™ Non-slip grip technology on knee pads
- Shock absorbing 10mm foam, plus a second layer of polyurethane foam in knee pads for max comfort
- Multiple adjustable elastic straps and Velcro® closures for secure fit for various leg girths
- Can be worn inside or outside of gear
- One size fits all

**#DNE-4 : IMPERIAL™ Neoprene Elbow w/ non-slip pads**

- One size fits all

**#FP-10 : IMPERIAL™ Forearm protectors**

- Forearm protection from wrist to elbow
- Lightweight EVA foam with hard shell plastic inserts
- Two adjustable straps
- Protected with durable black fire retardant polyester mesh
- One size fits all

## #DCP-2000 : IMPERIAL™ Upper body and Shoulder Protector

- Lightweight cellular EVA foam pad design for maximum movement and protection
- Neck-roll features 40mm high-density sponge foam
- Shoulder pads with hard shell plastic inserts and foam padding
- Protected with a durable fire retardant tight-weave polyester mesh
- Adjustable reinforced straps with Velcro®
- Non-ballistic
- Approximately 2 lbs (.9 kg)

### Size range (as measured by chest size):

- Medium: 38"-42" (96.5 - 107 cm)
- Large: 42"-46" (107 - 117 cm)
- X-Large: 46"-52" (117 - 132 cm)
- XX-Large: 52"-56" (132 - 142 cm)
- XXX-Large: 56"+ (142 cm+)

Reflective name plates also available. Sold separately.

These reflective name plate tags are 9" wide by 3" tall. They are made for use on all Damascus® KORE Tactical Bags™, #DCP-2000 IMPERIAL™ Upper Body Protectors, and the #FX-1 FlexForce™ Crowd Control System.

POLICE	(#NP-PD)
SHERIFF	(#NP-SD)
CERT	(#NP-CO)
CORRECTIONS	(#NP-CD)

# IMPERIAL™

## #DSG-100 : IMPERIAL™ Hard Shell Knee/Shin Guards

- Hard-shell knee caps with Trion™ Non-slip grip technology
- Hard-shell polyethylene shin plates with dull black finish to avoid reflection
- Heavy-duty reinforced foam padded nylon inner leg support
- High tenacity, air textured DuPont Ultra Cordura® nylon outer materials
- Multiple adjustable elastic straps and Velcro® closures for secure fit for various leg girths
- Adjustable (and removable) foot guard plates
- Interior name tags for personal identification
- Washable

### Available Sizes:

- Md/Lg - 9" shin guard [22.86 cm] / 15" total length [38.1 cm] \*excluding foot guard
- Xlg - 11" shin guard [27.94 cm] / 19" total length [48.26 cm] \*excluding foot guard

## #TG-20 : IMPERIAL™ Thigh / Groin Protector

- Designed to compliment the #DCP2000 Imperial Chest and Shoulder Protector.
- Lightweight cellular EVA foam padding offers excellent protection from blunt trauma.
- Polyester mesh lines the inside which offers comfort and breathability.
- Four inch elastic straps with Velcro wrap around the thigh for a secure and snug fit.
- Adjustable and removable padded groin protector
- Non-ballistic
- One size fits all

Damascus Protective Gear offers the following kit options for ease of ordering. The pre-selected packages include the most popular protective items we make for departments and agencies worldwide, seeking a complete “head-to-toe” protective package. Customized packages can also of course be assembled with the assistance of our experienced sales staff.

Please note that some items require the customer to select a specific size when ordering. They are noted with an: \* .  
Additional product information including size ranges can be found on the preceding pages.

#### #K1 : (PICTURED)

- One #DCP-2000 Imperial™ Upper Body Protector\*
- One Reflective name plate
- One pair of #FP10 Imperial™ Forearm protector
- One pair of #DRE25 Reactor™ Full finger tactical gloves\*
- One pair of #DSG-100 Imperial™ hard shell knee/shin/foot guards\*
- One #NH50L Nomex® lightweight hood (black)
- One #DB-1 Gear bag

#### #K2 :

- One #DCP-2000 Imperial™ Upper Body Protector\*
- One Reflective name plate
- One pair of #FP10 Imperial™ Forearm protector
- One pair of #CRT100 Vector 1™ Carbon Tek riot control gloves\*
- One pair of #DSG-100 Imperial™ hard shell knee/shin/foot guards\*
- One #NH100 Nomex® heavyweight hood (black)
- One #DB-1 Gear bag

#### #K3 :

- One #DCP-2000 Imperial™ Upper Body Protector\*
- One Reflective name plate
- One pair of #CRT300 Vector 3™ Ultimate riot control gauntlets\*
- One pair of #DSG-100 Imperial™ hard shell knee/shin/foot guards\*
- One Pair of #DEP-1 Imperial™ elbow pads (black)

- One #DB-1 Gear bag

#### #K4 :

- One #DCP-2000 Imperial™ Upper Body Protector\*
- One Reflective name plate
- One pair of #FP10 Imperial™ Forearm protector
- One pair of #DSG-100 Imperial™ hard shell knee/shin/foot guards\*
- One #TG20 Imperial™ Thigh / Groin Guards
- One #DB-1 Gear bag

## #FX1 : FlexForce™ - Modular Hard Shell Crowd Control System

The #FX-1 FlexForce™ Modular Hard Shell Crowd Control System is the ultimate high-threat level riot control, domestic disturbance, and cell extraction suit. The FlexForce™ design provides substantial protection from blunt force trauma without sacrificing the fit or comfort. The suit is lightweight and ranks highest in ease to put on or take off in a moments notice. The front and back hard shell panels have a modular flex design allowing for all shapes and sizes to fit comfortably without sacrificing much needed mobility. The forearm guard offers a much more comfortable elbow portion of the pad, which allows more flexibility. The knee/shin guard has a non-slip surface, which keeps you planted in position. The FX-1 is a considerably improved fitting system over competitor models and a noticeably better price point.

### Upper Body and Shoulder Protection

- Hard shell front and back panels feature a unique Damascus® 3-panel flex design for optimum movement, fit and comfort
- 3mm Electrum XK8™ hard shell front and back panels
- Modular front and back panels are steel riveted together with Cordura® nylon connector straps which attach by Velcro®
- Shock absorbing Protium™ foam with a Polyester mesh covers the chest, back, shoulder, and upper arm
- Electrum XK8™ plate with shock absorbing Protium™ foam covers both top of shoulder and upper arm
- Polyester mesh lines the inside of the upper body and shoulder portion which offers comfort and breathability for long term wear
- Reflective Police, Sheriff, or Corrections labels can be attached to the front panel for identification
- Adjustable Straps fasten with durable nylon elastic and Velcro®

### Forearm Protector

- Two piece hard Electrum XK8™ outer shell provides flex needed by your forearm and elbow.
- Shock absorbing Protium™ foam covered with 420 denier Cordura nylon
- Polyester mesh lines the inside which offers comfort and breathability
- Adjustable straps fasten with durable nylon elastic and Velcro®

# FLEX

## Thigh and Groin Protector

- Hard Electrum XK8™ outer shell on thigh and hip sections
- Shock absorbing Protium™ foam with 150 denier Cordura nylon covers the entire outside
- Polyester mesh lines the inside which offers comfort and breathability

Tailbone pad has a Electrum XK8™ plastic plate laminated to the Protium™ foam Groin section has a inner Electrum XK8™ shell with a Protium™ foam padding and mesh cover Adjustable Straps fasten with durable nylon elastic and Velcro®

## Knee and Shin Guards

- Hard Electrum XK8™ knee caps with super non-slip grip
- Hard shell Electrum XK8™ shin plates with dull black finish to avoid reflection
- Heavy-duty reinforced Protium™ foam padded nylon inner support
- Inner support riveted to the shin plates for ultimate durability
- Multiple adjustable nylon elastic and Velcro® straps give a secure fit
- Removable adjustable foot guards

## Sizing

- Each piece of the suit fastens and adjusts quickly with durable nylon straps, Velcro®, and quick connect clips which allows each individual a custom fit.
- Available in sizes MD, LG, XLG, XXLG, XXXLG

## Gear Bag

- Total Dimensions - 24"L x 19"W x 15" H
- Interior Dimensions - 24"L x 15"W x 15" H
- Two Velcro® storage compartments in the front of the bag
- Sides of the bag have envelope pouches
- Removable padded shoulder strap

# FORCE

## #DB-1 : KORE TACTICAL™ Gear Bag

The #DB-1 is designed to carry Damascus Crowd Control and/or SWAT gear and includes a separate helmet storage area. Quality construction consists of 1000 denier, water resistant Cordura nylon, heavy-duty zippers and removable nylon web shoulder strap. Nylon web carry handles are on both the sides and ends of the #DB-1. Features include a removable rigid bottom in the main compartment and padded exterior walls in the helmet compartment. Three zippered cargo pockets and two zippered mesh pockets on the exterior hold a wide variety of items. Velcro® straps on the padded top can secure a baton or flashlight.

### Dimensions

Total dimensions: 34"L x 10"W x 12"H  
Large interior compartment: 20"L x 12"W x 12"H  
Small interior compartment: 14"L x 12"W x 12"H

Available in black only

## #PB-2: KORE TACTICAL™ Duty Bag

- 1000 denier water resistant Cordura nylon
- Velcro® Flashlight or Baton Holder on top
- Velcro® Identification Patch on top
- 3 Heavy-duty zippered pouches on ends of bag
- Front has expandable baton holder, small flashlight pouch, clipboard and radio holders.
- Inside features two zippered pouches and an adjustable divider with rigid bottom.
- Removable padded shoulder strap.
- Available in black only

### Dimensions

Total dimensions: 24"L x 10"W x 12"H  
Interior Compartment: 17"L x 10"W x 12"H

Available in black only

**#NH50L Lightweight Hood  
made of Nomex®**

- 3 ounce 100% Nomex®
- Approximately 18" (45cm)
- Colors: black, OD green, and tan
- U.S. Made
- Size: One size fits all

Kevlar® version: #KH50H

**#NH100H Heavyweight Hood  
made of Nomex®**

- 8 ounce 100% Nomex®
- 15" length (37.5cm)
- Colors: black, OD green, and tan
- U.S. Made
- Size: One size fits all

Kevlar® version: #KH100H

**#NH250H Heavyweight Hood  
with flared bib made of Nomex®**

- 8 ounce 100% Nomex®
- Approximately 18" (45cm) flared
- Colors: black, OD green, and tan
- U.S. Made
- Size: One size fits all

Kevlar® version: #KH250H

**#K25 Sleeves made of Kevlar®**

- 2-ply 100% Kevlar® to resist blades and scratches
- Can be worn under or over clothing
- Thumb holes
- Heat and flash resistant
- U.S. Made
- Sold in pairs

Size: sm/md (16" length (40cm)) OR lg/xlg (19" length (47.5cm))

**KEVLAR®**

### Damascus Floor Displays

#### Description:

3 sided free-standing unit. Black metal grid with black metal 6" hooks. Comes with 3 silver aluminum Damascus logo headers. Also included

#### Dimensions:

Each panel is 6' tall x 2' wide, for a total of 36 square feet of display area.

#### Display capacity:

With our standard glove packaging this unit will hold 3 rows across x 5 rows down (or 12 hooks per side), including headers.

60 - 6" black hooks are included. Each hook can hold 6-8 gloves for a max total of approximately 216 pairs. Hooks can be moved around to accommodate tactical gear items including chest protectors, etc.

### Damascus Banners, Posters & Decals

Damascus promotional items are billed "at-cost", or in some cases free of charge with qualifying order quantities.

- Banners: 12" x 36"
- Posters: 12" x 36"
- Decals: 3" x 5"
- T-shirts: For sales staff.

## DPG SAMPLE PORTFOLIO

DPG has custom designed this sample portfolio for both our own sales reps and yours. It is the ultimate way to keep glove samples organized, identified, clean, easily located for presentations, and portable for the road.

Our portfolios open from the top with side zippers for flat loading and presentations and expand to up to 6 inches of depth.

The portfolio holds up to 72 single gloves in individual see-thru mesh pockets each with a plastic card holder pocket to insert a product identity card. When open, the portfolio functions much like a metal ringed binder where each "page" can be flipped to the next.

Made of rugged water-resistant 800-denier polyester construction with sturdy carrying handles.

The overall size when closed / zipped-up is 24" x 32".

### In-Store Mannequins and Displays:

DPG now offers great display mannequin options to our wholesale dealers and retail stores.

# CARING FOR DAMASCUS PRODUCTS

## GENERAL PRODUCT CARE:

Damascus Gloves® are quality products made with the highest quality materials and can be easily washed if done properly. While we feel our gloves are extremely durable and an excellent value for your money, they are not indestructible and common sense does apply. Damascus Gloves® are NOT work gloves. If you use them for rough manual labor, stacking lumber, changing tires, expose them to extreme heat, expose them to harsh or caustic substances, leave them to bake on the dash of your car, or allow your cat or dog to use them for chew toys, you will likely find your gloves to be in substantially worse condition than when you bought them. Many people find our gloves will last them several years while others will wear them out in a few months. It all depends on how often you wear them, how you use them, and how well you take care of them. Only you can determine whether or not our products lived up to your expectations. If for any reason you are not completely satisfied, please let us know about it.

Regarding Cut Resistant Gloves, while the liners are highly abrasion resistant, remember, the leather shells of styles such as the DFK300, DFS2000, DFM3500, etc. are designed for sensitivity, close fit, and maximum dexterity. Our leathers are not cut resistant in and of themselves. As such, the gloves must be treated in the same manner as our other all-leather gloves. While Cut Resistant Gloves should significantly increase the wearer's safety against sharp or highly abrasive surfaces, if such contact is encountered, the shells can likely be permanently damaged. We assume this is preferable to serious injury to your hands. Also, Cut glove inserts are knitted products.

Another thing that will help extend the life of your Damascus brand handwear: be sure you have a correct fit. Gloves that are either too tight or too loose will wear out more quickly. Gloves should fit snugly but not tightly. If they slip on easily when first bought they will probably be too large when broken in. Conversely, even though a main feature of our gloves is a snug close fit, don't try to overdo it. If you're a size Large, wear size Large gloves even if you can force your way into a size Medium - what you will end up with is a very odd looking restrictive pair of gloves that will split apart so on after first putting them on.

## WASHING INSTRUCTIONS FOR GLOVES:

Leather or Leather Palmed Gloves: Leather is a porous material. Gloves that are left covered or impregnated with grit, dirt, or grime will not only look and feel unpleasant, but will also wear out more quickly. To wash your Damascus Gloves®, remove excess grime, dirt, etc., and gently hand wash in cool to lukewarm water using mild PH-balanced detergent. **DO NOT** wash any other articles with the gloves as some of the dye will run. This is normal. Many fine glove leather products are available, however, we find a gentle shampoo works very well, is usually readily available, and very cost effective. Rinse thoroughly in cool to lukewarm water. Repeat if necessary. Gently squeeze out excess water.

We also recommend thoroughly coating gloves inside and out with quality PH-balanced hair conditioner and let stand one minute (this helps replace any leather topping oils which may have been removed). Again, while there are many fine products on the market, we have found hair conditioner works extremely well, is also readily available and inexpensive, and has a pleasant fragrance. Rinse thoroughly with cool to lukewarm water. Pat dry with towel, flatten out and shape. Lay on a flat surface and air dry. **DO NOT MACHINE DRY OR USE DIRECT HEAT OF ANY KIND ON LEATHER GLOVES. DO NOT DRY IN THE DIRECT SUN. DO NOT USE BLEACH.**

Honeywell® Spectra® and Spectra® blend knit liners can be worn alone but will last longer if used according to design inside a glove shell. If wearing alone, avoid snags. Hand or machine wash, warm water only. Use soap or detergent. Bleach if necessary. Air dry at temperatures less than 120 degrees F. Inserts made with Spectra® and Spectra® blend yarns can be sterilized using chlorine bleach.

DuPont® Kevlar® knit liners can also be worn alone. If wearing alone, avoid snags. Hand or machine wash. Use mild soap, **NO BLEACH**. Sterilize in boiling water at least 20 minutes. Air dry or tumble dry low.

**Disinfecting:** Unlike inserts of Spectra® and Kevlar®, no leather glove can be completely disinfected against infectious pathogens, blood borne or otherwise, according to OSHA guidelines. In the event of such contact, gloves, like your shoes, uniform, belt, and other garments and porous accessories, must be discarded and/or incinerated. However, a disinfectant such as liquid Lysol® brand can be applied for everyday health concerns by adding it to the water during normal washing without damaging the gloves. This is the preferred method. As an alternative, the gloves can also be sprayed with an aerosol type disinfectant, allowed to dry, and repeating the process once or twice. The interior of gloves can also be disinfected by turning them inside out and treating in the same manner. Regardless of the manner used, the gloves should be washed thoroughly as described previously.

Synthetic based gloves using materials such as Spandura®, Clarino® synthetic leather, Neoprene etc. as found in our styles MX10, MX30, DNS860, etc. can be cared for much in the same way as our leather styles. Hand washing is preferred, for longevity however machine washing is acceptable. **NO BLEACH** should be used at anytime. The products are best if air-dried.

## WASHING INSTRUCTIONS FOR TACTICAL GEAR:

Please contact us at [customercare@DamascusGear.com](mailto:customercare@DamascusGear.com) for specific requests on these products.

For any product care details or questions not answered on this page, you may contact us directly.

# SIZING YOUR DAMASCUS GLOVES

## How to Find Your Size:

Usually one hand will be slightly larger than the other, typically the strong hand (e.g. the right if right handed). Using a tape measure, wrap the tape around the hand at the widest part as shown and make a loose fist. Round the measurement to the nearest whole inch.

MEASUREMENT:	GLOVE SIZE:
7" (17.8cm)	X-SMALL
8" (20cm)	SMALL
9" (23cm)	MEDIUM
10" (25cm)	LARGE
11" (28cm)	X-LARGE
12" (30.5cm)	XX-LARGE
13" (33cm)	XXX-LARGE

Sizing is based on a "normal" or "standard" size hand. Unfortunately, almost no one actually has a "standard" sized hand, no two people's hands are the same, and no pair of hands matches exactly. Similarly, no two pairs of gloves are exactly alike, as each pair is cut individually and since leather is a natural product, no two skins are exactly alike, nor is the leather uniform throughout the skin.

While we try to be exact, some gloves will have a little more stretch in the width, and some a little less. We refer to these as "soft" (a little more stretch) and "firm" (a little less stretch) sizes. You can check this by pinching the sides of the glove on either side of the knuckle area and pulling outwards. A "perfect" size should stretch about  $3/4$ " for an unlined glove, 1" for a lightly lined glove, and  $1\ 1/4$ " for a thickly lined glove. A "soft" pair will have slightly more, a "firm" pair slightly less. People with shorter fingers should try going down 1 size and trying on a "soft" pair. People with longer fingers should go up 1 size and trying a "firm" pair. Sizing is broader in the Damascus Hand Armor line and most are "firm" sizes.
