About us

To the men and women whose job it is to protect and Serve, Preserve our Freedoms
We at Kraken Products say, Thank You and we are grateful for your service.

It's with you in mind that we designed and produce the range of NRG helmets. We have heard time and time again that the helmets that are available to you are more for recreational use and rarely meet your requirements.

The NRG helmets have incorporated features into the helmets not found in any other product, still keeping it lightweight and providing maximum protection.

Whether you are on Land, Sea or in the Air, NRG will protect you there.

NRG Helmets, designed with your protection and safety in mind.

PATROL

SIZING

NRG Products have produced a unique head lock fitting system to reduce the amount of movement when the helmet is being worn.

The fitting system was designed with professional users in mind giving ample room for skull caps, bandanas; balaclava's and radio headsets etc but also being able to quickly and simply adjust the fit when worn without.

Our special fitting systems also mean that a smaller range of sizes are needed to be fully stocked at all times.

MEASUREMENTS

SMALL – MEDIUM = 51 – 56cm

MEDIUM – LARGE = 53 – 59cm

LARGE – X-LARGE = 55 – 61cm

NRG LAND & SNOW BUMP HELMET

CE CE-EN 1078

NRG HELMETS

ABOUT

NRG Land helmets by Kraken Products have been designed for the professional who needs their equipment to be light weight, dependable, durable and to give the maximum protection against head injuries.

Important standard features that separates the professional Land helmet from the currently used recreational / sports helmet are, zero reflective matte black finish, durable, non corrosive snap goggle strap with personnel marker light stick holder inset and a mesh inlay to allow air in for circulation and keep debris out. Each helmet comes in mesh bag with multi language police, military, search and rescue waterproof stickers. Also included is a Velcro strip for the easy attachment of Velcro national identification patches.

The NRG Land helmet is certified to CE-EN 1078 safety helmet standards and are produced in our ISO 9001 facility.

PROFESIONAL FEATURES

- ✓ **Light stick holder**
The NRG light stick holder is designed within the goggle strap and takes illumiglow 1.5inch military grade light sticks, this feature is unique to NRG helmets adding to the functionality of the helmet.
- ✓ **Hi Visibility reflective strips (In sticker pack)**
For search and rescue, training or anytime when hi visibility is vital the included reflective strips are an important accessory
- ✓ **Mesh net protection across all air vents**
The land helmet includes fixed mesh air vents within all 9 air holes to prevent bugs and debris from entering the helmet.
- ✓ **2 Removable chin protectors hard and soft**
The 2 different chin protectors allow you to decide whether maximum comfort or maximum protection is most important for each individual mission.
- ✓ **Total Matte black – zero reflective surface**
Vital for covert use, the zero reflective surface gives off no glare and has no bear metal to give a different thermal reading.
- ✓ **Velcro patch & International identification Sticker Kit**
The included Velcro patch and international sticker kit allows you to attach your chosen ID markings quickly and easily.
- ✓ **Durable Goggle strap**
The NRG Land helmet comes with our unique durable goggle strap designed for ease of use and strong enough to take the professional usage.
- ✓ **9 Air hole cooling system and side vents**
The NRG Land helmet design has been based on maximum protection whilst staying incredibly light and comfortable, the air flow system is designed to keep your head cool at all times through a controlled air intake and circulation system.
