

 **Smith & Wesson[®]**
Footwear

Horace Smith and Daniel B. Wesson had a passion for developing the world's most superior firearms. This simple, clear and unwavering passion was instrumental in shaping the early American landscape, and continues to transform the world today.

To some it would seem improbable that two men who spent a lifetime perfecting the handgun would someday be at the epicenter of a footwear brand.

But the sheer fact that they are is a testament to the strength of the icon they created a badge so powerful it could transcend its storied heritage and become an enduring symbol of power, precision and craftsmanship.

Each pair of Smith & Wesson boots is a reflection of the brand's authenticity. The Model 3 American, the Model 10, the .357 Magnum, the .44 Magnum – each Smith & Wesson handgun was built to serve a specific purpose, and so it is with our complete line of tactical footwear. From traction to comfort to protection, each pair is built with a solution in mind to ensure our boots live up to their name.

PURSUIT OUTSOLE

The Pursuit sole is a lightweight low profile multidirectional lug pattern created to give the wearer maximum traction by keeping the majority of the lugs on the ground all the time. The low profile lugs also keep the weight of the soles to a minimum. In addition the lightweight compression molded EVA midsole x-rays through the outsole to create a very stable and comfortable platform.

TRAIL OUTSOLE

The Trail sole is an advanced design built to maximize indoor and outdoor performance. The sole features siped multidirectional oval lugs that are rugged enough for outdoor pursuits yet not so aggressive that the soles are slippery when worn indoors. The lateral build and lug progression provides built in comfort while still extremely lightweight.

DEFENDER OUTSOLE

The Defender sole is a highly durable aggressive outsole with comfort features built in. The sole cleats rebound with each step to maximize shock attenuation and provide spring and the internal EVA pads provide an extra level of comfort. The aggressive outsole provides excellent traction on any surface while providing a level of self cleaning so debris is not tracked into buildings upon entry.

TRACK OUTSOLE

The Track sole is built to excel in the most rugged situations. Built with a mix of jagged interior lugs and more traditional flat outer lugs, this boot won't let you down no matter how brutal the terrain. When paired with the track midsole, you have an exceptionally lightweight rugged sole. The neutral heel and outer lugs will provide exceptional comfort for those are on the move.

NOTES:

At Smith & Wesson Footwear through teamwork and a commitment to excellence we continually improve our process in order to deliver the best value, highest quality footwear and custom manufacturing products worldwide. We are committed to being very aggressive in our attitude towards quality and customer satisfaction, primarily since we strive to be ranked as the “best” in our market. Quality is not just another goal; it is our basic strategy for survival and future growth.

With any Smith & Wesson footwear purchased we guarantee premium quality and comfort. If our footwear does not meet your expectation within 30 days, you may return the unused footwear, and we will fully refund your cost of the footwear purchase. We will replace or repair footwear at our discrepancy if you experience a defect in workmanship or materials within one year of your footwear purchase outside of normal wear and tear from continuous use. Any purchase or issued boot must be returned through the location of the boot purchase or issue. All returns and exchanges are subject to the purchasing and issuing location’s return and exchange policy.

Footwear qualified for return/exchange must be returned to the location of purchase with a valid sales receipt. If the footwear was purchased directly from Smith & Wesson Footwear, the footwear must be shipped at customer’s expense with the return authorization number provided by customer service clearly labeled on the packaging. All returns/exchanges are subject to a 10% restocking fee.

Return & Exchange Policy Exclusions:

1. Normal wear & tear
2. Damaged due to extensive use
3. Damaged due to inadequate maintenance
4. Once footwear has been worn, incorrect size/fit
5. Footwear returned beyond warranty period
6. Damaged due to chemicals or other unknown substance
7. Safety Toe footwear after sustaining initial impact
8. Damaged from mishap including abuse, cuts, abrasions, etc.
9. All discontinued, closeout, and second item sales are final
